## **Today's Organ Music**

Organ Prelude: J S Bach (1685-1750) Prelude in E-flat Major BWV 552

Organ Postlude: J S Bach (1685-1750) Fugue in E-flat Major BWV 552

Everything here is in threes, as this music is a deliberate representation of the three figures of the Trinity and is considered one of the most profound compositions ever written. In the Prelude, first of all the Father appears with majestic chords and imposing motifs. Then comes the Son in a tender and loving style, full of variation. And finally, the Holy Spirit descends to fast notes like fiery tongues.

In the fugue, Bach sweeps the listener along by building up from the fugue themes, which are each heard a multiple of three times, are related to one another and can be combined well. The first theme, in particular, still sings out regularly above the tumult, even after its turn. In the final section, Bach deftly combines the first and third theme into a new element, before the edifice reaches its majestic conclusion. Bach intended the prelude as an introduction to the service and the fugue at the end, and this is how we will hear this music today.
